1. "How Mike from Wisconsin turned a little postcard into a business that never stopped growing."

Mike was a Real Estate Leasing Agent who was getting tired of the runaround and traveling. He met a marketer by chance at a hotel. They struck up the usual conversation that led to Mike learning about the marketer's business and how he used postcards to find all the new people he needed. Mike said, "I was at a point in my life where I was looking for something new. I joined and started mailing postcards quickly." Mike went all in. He contacted several mailing list brokers and was mailing over 50,000 postcards every three months. As a result, Mike's business grew so fast that he had to get help with training the new people how to mail their postcards. Once those new people started mailing their postcards, Mike started moving up in the business, and so did his income. Mike said, "Now I can just stay home with the kids and run my business by talking on the phone. The postcards are doing all the work for me and everyone in my business group."

2. "Should I stay in business and keep using postcards or should I quit?"

Unfortunately, the United States of

America has become a Nation of Quitters. In generations past, strong men and women courageously and willingly put their lives in harms way to defend our freedom and way of life. However in recent years, too many Americans have become weak. They have a microwave attention span and they will only agree to do next to nothing to receive full benefits. With everything they become involved with - they quit. They make a life-long career out of quitting. They pay a high price for quitting. They become weaker with each passing year. Their lives are a mess because they followed the path of a quitter. They fail with everything, in every possible way. They have doomed themselves by taking the path of the quitter.

3. "Keep mailing 30 Postcards every day to build your business."

The path of the strong leads to success. But, the path of the strong requires fortitude and persistence. Consider a story about a Chinese man who came to America. Many immigrants start out as street peddlers for three or four years until they have saved enough money (between \$50,000 and \$100,000) to start their own small business. The story tells about Lin who earned \$360 a week peddling vegetables, fruits, and umbrellas. His annual income: \$22,000.

A Side Story...Here's what a Small Town Millionaire taught me about the Multiple Income Solution.

Many years ago I met a man named Fred - who owned a number of businesses in town. I was eating at his restaurant and he came over and started talking about business. Me, being the inquisitive type, jumped right in with all sorts of questions.

This wildly successful restaurant owner told me that he also owned a "piece" of the town gym, two pizza parlors, another fancy restaurant, a golf course, and a landscaping business. Fred also owned several rental properties. **In total, Fred had over eight (8) different income streams.** Fred was a very rich man.

The next thing Fred revealed to me was astoundly brilliant. I hope you can appreciate this as much as me. ***I asked him, What was his "model" for business?*** Not in locating businesses, or what types of products to sell. I wanted to know his philosophy. What Fred said fascinated me. Not only in its simplicity, but in how profound his answer was.

You'll be **BLOWN AWAY** by what this Rich Man told me next. **You can quickly start applying this same multiple income solution in your own life.** You'll learn how to do this WITHOUT buying or running any type of local business. I can show you how to collect money in multiple ways NATIONWIDE...doing some pleasant work only a few minutes a day from your home.

What is amazing is that Lin saved \$18,000 of his income and lived on the remaining \$4,000. Lin saved over \$70,000 in 4 years so he could start his own business. -- Hmmm. I'd say Lin is motivated and willing to make a few sacrifices in his standard of living to achieve his dreams. Americans take too much for granted. They're spoiled. They want things, but aren't willing to pay the price. New immigrants to America also want things, but they ARE willing to pay the price. They are excited that they have the opportunity to pay the price.

4. "Many people continually repeat this failing pattern with postcards."

Many people continually repeat this failing pattern with postcards. P- What do "average" Americans want? They want their own business, but only if it's free. They want a huge income, but only if they don't have to do anything to get it. That's why I'm looking for "unaverage" Americans to get involved with a real business and apply just a little effort doing one simple thing...mail 30 Postcards a day! Imagine going to your local store, gathering the items you want to purchase -- and standing behind 20 people in the check out cashier line. Then, you wait until there are now only 3 people remaining in the line. Soon you'll be able to purchase your items and get out of the store. BUT -- instead of patiently waiting a little longer -- you move to a different line and stand behind 15 people who are waiting in line. Even though this is ridiculous, you keep moving to a different line all day long - and eventually you give up and quit. You then go home empty handed. Well, that's exactly how 98% of the people operate their very serious MLM business. Most people continually repeat this failing

pattern. They join an MLM business, mail a few postcards, and then decide it's not working after 2 to 4 months. Next - they quit mailing postcards. Then...Repeat...Repeat...Repeat.

5. "What happened when I decided to keep mailing postcards for one business?"

I've been doing network marketing for over 20 years. During the first 6 years, I was in 30 different MLM companies. The highest monthly check I ever made was \$104. Then everything changed when I met some very experienced, successful network marketers. These people made an impact on me that caused me to change my way of thinking. I made the decision to follow my new mentors...whom later became my good friends. These guys had success, and I wanted it too. They knew what to look for in choosing a quality MLM business. I did not know how to choose for myself. They knew the necessary skills for building a growing MLM business. I did not know how. I gave up on my own inexperience and let them choose the MLM business. I made the unwavering

commitment to follow these successful people -- and do what was necessary to succeed. I decided to stay with that business and keep mailing postcards! Within one year -- I became successful and built a powerful MLM business that still continues to pay me residual income today. That was over 25 years ago!

6. “Do you have a proven track record using powerful postcard marketing system?”

Will you choose to follow someone who knows how to succeed in this network marketing industry? Or will you rely on your own judgement...based on inexperience, pride and past failures? Bluntly -- your success in this industry depends on following a successful person. Unfortunately, it's almost impossible to find a truly successful person with a proven track record using powerful postcard marketing system. Through my postcard marketing system, you have found me. But, will you make the strong commitment to follow me so you can be successful? (*Marketing Tool: Look at System 8 in my Catalog) You must decide what you are going to do right now! Are you going to stay or quit?

If you stay and consistently build this business for at least one full year -- you will be financially set for life with an ever-growing residual income for you and your family. That means paying the price of persistence -- to do what is necessary to build your own business. If you quit in 2 to 4 months, you will leave empty handed. However, my great hope is that you will stay and build a great life for yourself with a powerful business.
