1. “How Gary from Kansas taught hundreds of people to mail postcards.”

I remember getting a special postcard from Gary. He was promoting the products from a hundred-year-old company. This company paid out residual income on several commission levels. Gary developed a complete training system that taught his new recruits to mail postcards and place ads. Gary said, “I knew I had to work extra hard to help people succeed with this business. Just talking to local people wasn’t going to work for most people. That’s why I created an easy postcard recruiting system”. Gary showed people how to be successful by mailing small batches of postcards. Of course, Gary had created a successful postcard through various testing. His postcard was very responsive at pulling new people into the business. All people had to do was mail Gary’s postcard to be successful.

2. “Thomas Edison Invented the Light Bulb and Changed the World. What Will You Do?”

Successful People Do this: 1. Learn how to play the game to win. 2. Do the daily work until they win. Losers Do this: 1. Ignore how to play the game to win. 2. Try something for a short time, whine

about it, blame others -- and then quit. Thomas Edison had the vision inside of himself for how the incandescent light bulb should work. He followed scientific principles and PLAYED THE NUMBERS GAME to find the one correct filament that would make his light bulb work correctly. Thomas Edison was obsessed with his vision of a working light bulb. The strength inside of Edison was like the power of the sun. In fact his vision was so strong that it was impossible for him not to succeed at creating a working light bulb. Edison worked in his workshop relentlessly -- night and day. Edison gathered unto himself material elements from all over the world. He kept the elements in glass jars surrounding his workshop. Edison systematically experimented with each element to test the electrical conductive properties. He was searching relentlessly. Many nights he fell asleep on his workbench. His wife had to feed and dress him as if he were a baby. Edison was so consumed with his light bulb that regular everyday matters did not exist in his thinking. He had a burning focus that could not be diverted.

3. “Follow your own postcard business goals to the end so you can win.”

Edison alone took complete responsibility for his vision. The creation of the Light Bulb was entirely his responsibility. What if Edison would

A Side Story...Here's what a Small Town Millionaire taught me about the Multiple Income Solution.

Many years ago I met a man named Fred - who owned a number of businesses in town. I was eating at his restaurant and he came over and started talking about business. Me, being the inquisitive type, jumped right in with all sorts of questions.

This wildly successful restaurant owner told me that he also owned a "piece" of the town gym, two pizza parlors, another fancy restaurant, a golf course, and a landscaping business. Fred also owned several rental properties. **In total, Fred had over eight (8) different income streams.** Fred was a very rich man.

The next thing Fred revealed to me was astoundingly brilliant. I hope you can appreciate this as much as me. ***I asked him, What was his "model" for business?*** Not in locating businesses, or what types of products to sell. I wanted to know his philosophy. What Fred said fascinated me. Not only in its simplicity, but in how profound his answer was.

You'll be **BLOWN AWAY** by what this Rich Man told me next. **You can quickly start applying this same multiple income solution in your own life.** You'll learn how to do this WITHOUT buying or running any type of local business. I can show you how to collect money in multiple ways NATIONWIDE...doing some pleasant work only a few minutes a day from your home.

have faltered with his personal responsibility to do the necessary daily work to follow his vision to the very end? Yes, the Light Bulb would have eventually come into existence by someone else's diligent work. But at what cost to mankind? Edison's Light Bulb changed the world in countless wonderful ways. Important work could now be done at night by all of mankind. Edison's Light Bulb sped up the overall progress of mankind. Did you know that Edison had to install working light bulbs for companies for FREE -- just to convince them to accept the great power of the Light Bulb?

4. "Create your own monthly income with MLM and postcards."

Your MLM business is your invention and your vision. Will you persistently do the daily work to build a successful business? Or, will you ignore how to play this game, lose your focus, blame others -- and quit? Your MLM business is your responsibility. (*Marketing Tool: Look at System 8 in my Catalog) Edison did not say, "I'll try to create the Light Bulb and see how everything goes." NO, NO, NO -- it was absolutely impossible for Edison to fail because HE UNDERSTOOD HOW TO PLAY THE NUMBERS GAME! In fact -- Edison experimented with over 10,000 - YES, TEN THOUSAND different element materials in order to finally discover the working "carbon filament". When Edison was asked about failing over 10,000 times, he replied: "I did not fail. I simply eliminated all the materials that would not work. By eliminating those materials, my search revealed the one element that WOULD WORK with the creation of my Light Bulb." Edison was a master at PLAYING THE NUMBERS GAME. He

sorted through all the elements that would not work, until he arrived at the one element that truly would work. You must be like Edison with the building of your business. You must become a master at PLAYING THE NUMBERS GAME. You do a little work each day, sort through the weak people who WILL NOT WORK -- and arrive at a few strong go-getters who WILL WORK to build your business. The ongoing question is -- Will You Do It, or Not? Will you decide to change the world in countless wonderful ways, or not?

5. "Why many people have started a sideline postcard marketing business."

Most people accept and embrace a failing employment system designed long ago for the masses by the elite power structure. Most people are miserable with their life-draining job and suffer from time poverty, yet they continue to work like a dog with their head in the sand. Most people continue to scrape by from month to month and when they make major purchases, they always charge them on their credit cards and then take months or even years to pay for their

purchases with interest. Looking ahead to their future, most people can clearly see that after working 40 grueling years, they will retire old to a bleak lifestyle where money is scarce and fear is ever-present. Most people refuse to break this harmful employee routine and follow in the footsteps of successful and experienced entrepreneurs who did what was necessary to start their own home business and get on the road to total financial freedom. Most people cling to the belief that starting their own home business is too much trouble. Most people continue to take the advice of those people around them who probably earn less money than they do. If people do start their own business, most likely they are beating a dead horse. Most businesses are no better than a job but they give the illusion of something with potential...where in reality there is none. Most people choose a traditional type business where they get paid based only on the hours they actually work, rather than choosing a residual income producing business where they do something one time and get paid for it permanently for the rest of their life. They also ignore major trends in the marketplace and critical timing factors. Most people choose the path of least effort and least cost. They choose a dead horse.

6. "Let me describe my postcard marketing business."

I'm working smart with a postcard marketing income producing home business. I've been receiving a weekly residual cash flow for over 10 years from the same company! Whenever I decide to stop working, I'll still continue to get paid for my previous efforts for the rest of my life...lasting "walk away" income! I followed the advice and guidance of a

famous multi-millionaire who analyzed this home business opportunity and chose it above all other opportunities. I'm building this business using a simple duplicatable system that is now working for everyone who joins my team. (*Marketing Tool: Look at System 10 in my Catalog) If I feel like taking a vacation to Hawaii or going camping at Yosemite National Park, I'll drop everything and do it. The TIME FREEDOM has been absolutely fantastic. Neighbors and friends ask questions like "just what is it that you do?". I know why they are asking. It's simply because I can come and go at all hours of the day or just hang around the house all day. Due to the time freedom, I can do anything at anytime. It is wonderful! If I want to purchase something extravagant, I pay cash! I try to help people wherever I go to break the cycle of harmful employment and begin living their dreams this year with a leveraged income producing home business.
